As if anyone needed another reason to visit the legendary Hotel du Cap-Eden-Roc...

Champagne and the Hotel du Cap-Eden-Roc have been intimate friends throughout the hotel's history. For years, the great and the good have plotted love lives and world politics as they have sipped a chilled glass of France's finest sitting on the deck of the Eden-Roc overlooking the Mediterranean Sea and the hotel's iconic swimming pool.

Following a €50 million restoration project completed in April 2011, the legendary Hotel du Cap-Eden-Roc now introduces a glamorous new experience for its devoted clientele in 2013 – the 'Eden-Roc Champagne Lounge'.

Set to become the iconic new place to take a drink on the Riviera, the 'Eden-Roc Champagne Lounge' is located on the open-air upper panoramic terrace of the legendary Eden-Roc. With stunning views of the Mediterranean, the property's pine forest and of course the hotel's iconic swimming pool built into the rock, this will be the one of the most beautiful places to sit back and watch the world sail by. With a relaxed ambiance and design and lounge music, it will accommodate up to 40 guests.

The 'Eden-Roc Champagne Lounge' will exclusively offer Champagne cocktails from the finest champagne houses in France. It is working exclusively with 13 different champagne houses selected for their different profiles by Head Sommelier Xavier Dinet.

There will be six Cuvées de Champagne served by the glass including Blanc de Blancs, Blanc Millésimé, Rosé, Prestige Blanc
